

Shipment Broker

Import business

Advantage

1. Overseas pick-up business -- expert of import express service

Import express gives you the freedom to choose when to pick up and deliver. Whether it is documents, packages or pallets, we can provide better overseas pick-up services. The import express service is fast and effective, so that you do not have to wait, we will monitor your goods and direct delivery to you.

2. Imports will become easier:

We have a worldwide service network and can import goods from more than 170 countries.

Quotation shall be IN RMB/USD and business settlement shall be in RMB/USD.

Custom clearance services will ensure that you have no worries;

Information system platform makes cargo operation more convenient; Faster time, more efficiency, more cost;

Full Chinese/English service, communication barrier-free.

Tips:

1. The agent needs to entrust our company to pick up the goods in the country of origin, and must fill in the letter of authorization correctly and stamp the official seal; Please contact our sales staff for a sample power of attorney;

2. When entrusting our company to pick up and transport non-document express, please inform the sender that they must provide commercial invoices, otherwise the transit time of express will be affected, and our company will not provide the service of declaration on behalf of the sender;

3. After the express arrives in Hong Kong, our company will check the weight, the real weight and volume ratio, the larger is the billing weight, volume calculation method: length * width * height /5000CM;

4. Our company accepts entrusted pickup time: Monday to Friday, deadline: 16:30pm; For the items before the deadline, our company will arrange to pick them up on the same day. It takes about 2-3 days to arrive at the port.

Entrust our company to pick up the goods and accept the payment from the entrusting party, but do not accept the payment from the sender

FBA First leg transportation

What is amazon FBA?

FBA stands for Fulfillment by Amazon.

What benefits does amazon FBA bring for us Amazon sellers?

First of all, doing FBA can increase the sales of the listing by 2-10 times. Because FBA services bring amazon revenue and profits, and improve its customer experience, Amazon will officially divert more traffic to FBA sellers. Secondly, FBA customer service team will take the initiative to delete the negative comments on logistics for FBA products to reduce the negative comments on logistics. Thirdly, the delivery time of goods is greatly improved, which can not only improve customer experience, but also increase the retention rate, improve the account's praise rate and overall performance, and finally increase the weight of the whole account. Finally, through FBA, you save storage costs in China, reduce warehouse staff, and achieve the ultimate goal of cost saving!

We have in-depth cooperation with DHL, UPS, FEDEX, TNT and other international express companies to provide amazon sellers with FBA initial transportation services. You can ship your goods to Amazon overseas warehouses by international express, air or sea shipping.

Service advantages

Safe and secure delivery of goods from China to Amazon warehouses.

Assist to deal with customs clearance and tax issues, reduce customs clearance issues and the resulting return.

Provide special value-added operation services, such as sorting boxes and pasting bar codes according to Amazon warehousing requirements.

The transit center can assist the seller to deal with the rejected and returned abnormal goods in Amazon warehouse, so as to avoid high logistics costs of direct return to China.

Special attention:

FBA goods must be normally forecast in our company, so that our transit center can operate normally. Without forecast goods, our transit center has the right to reject the goods and not assist in any customs clearance activities, and will not assume any responsibility for the loss of goods.
